

POSITION:	Developer
RESPONSIBILITIES:	Provide application and report development and support on the Kappa Kappa Gamma's website and systems.
REPORTS TO:	Director of Technology
REQUIREMENTS:	<p>Bachelor's degree in computer science or a related field or two years of related job experience.</p> <p>Knowledge of programming languages, including Microsoft SQL Server, .NET Framework, C#, HTML5, CSS, JavaScript, PHP and API's.</p> <p>Strong understanding of user interface, cross-browser compatibility, and general web functions and standards.</p> <p>Experience in planning and delivering software platforms.</p> <p>Excellent communication and analytical skills.</p> <p>Creative, flexible and quick to learn.</p> <p>Ability to work in a team environment.</p>
OPTIONAL:	<p>Knowledge of MVVM (Model-View-View-Model) and JavaScript libraries like AngularJS or KnockoutJS.</p> <p>Knowledge of SQL Server Reporting Services (SSRS), Microsoft Windows Communication Foundation (WCF) and web services.</p> <p>Experience with content management systems, ASI's iMIS database and RiSE platform, and Microsoft Power BI.</p>
DUTIES DESCRIPTION:	
Participate in a small team to select a new CMS, migrate existing applications, and develop applications for a new website integrated with iMIS.	
Maintain, troubleshoot and provide support of existing web-enabled applications, CSS templates, social media plug-ins, web services, and widgets across all Kappa websites.	
Perform stringent testing on all new software applications before deployment.	
Create/modify SQL tables, views, queries and stored procedures within the iMIS structure.	
Develop dashboards and reports using Microsoft SSRS and Power BI.	
Develop and maintain technical documentation for all applications and processes.	

Research and make recommendations to improve existing applications and processes.

Consult with third-party web designers, developers and internal content managers as needed.

Attend at least one professional development opportunity on new/current technologies annually.

Other duties as assigned by the Director of Technology and both Executive Directors.
