

## BASIC AGENDA

GIRLS Academy offers a fun-filled day of learning, growing and bonding for young women in sixth through eighth grade. The leadership retreat will begin by establishing ground rules, creating a safe environment where girls feel comfortable and treat one another with respect, and laying the foundation for a positive experience for everyone involved.

Throughout the day, Kappa Kappa Gamma mentors and trained facilitators will guide the girls through a set of activities and presentations designed just for them that will help them build confidence and leadership. Activity types will alternate between large group presentations, small and large group discussions, personal reflection time, and bonding games to support all learning types, keep girls engaged, and allow plenty of time for breaks.
